

Year 9 homework

Design the recreation room from the opening lesson of Warden X

What items would you have in the room for the prisoners to relax and enjoy their 'downtime' outside of their cells? Are there chairs/sofas for prisoners to relax in or tables with seats around them?

Where would Warden X's office be? Would they be able to see everything that was going on or would they have to enter the room?

How close is the recreation room to the canteen, the cells, or is it one room on its own?

Label each item with details of why you would have them in the room or what benefit they would have to the prisoners.
